

TAIR Surveys

The 2009/2010 TAIR Community survey polled the non-commercial TAIR user community to find out how well the TAIR web site is serving the needs of that community of users. It also surveyed the opinions of the community on approaches related to the sustaining of TAIR access and data over time. The survey itself is an online survey that TAIR built on the [surveymonkey.com](https://www.surveymonkey.com) web site. Half the responses were obtained by emailing a random set of registered TAIR users and the other half were obtained via a link to the survey on TAIR pages.

The 2009/2010 survey results are available in the following formats:

- [Formatted survey results PDF](#)
- [Excel spreadsheet with complete survey results including free text](#)

The 2008 survey results are also available:
